

Dear Waldorf Community,

In this challenging time when we are apart, we are constantly seeking out ways in which we can join together. With this in mind, we invite you to participate in a continental paper star-making project!

Inspired by Denver Waldorf School, we -- and Waldorf schools across North America -- will be creating simple paper stars that can be hung in your windows providing color, beauty and joy.

[The Star-Making Instructions can be found here.](#)

For star-making materials, you can order directly from [Mercurius/Art Makes Sense](#), or one of their [preferred suppliers](#).

With warmth and heart,

AWSNA
